## Enhanced Education Solutions by Optoma...

With over 20 years of experience providing innovative display solutions to some of the largest K-12 districts, colleges, and universities, Optoma visual solutions are a smart choice for any learning environment. From district-wide projects to single classrooms and large auditoriums, Optoma offers a variety of display solutions that are easy-to-install, provide interactivity for hands-on and collaborative learning, and a variety of connectivity options.

## Projection

Optoma is a world-leading designer and manufacturer of award-winning projection solutions. With a focus on premium quality, versatility, innovation and functional application, products are designed with longevity, reliability and ease-of-use in mind.

## Options for any installations

Optoma offers a wide variety of throw ratios and brightness levels that cater perfectly to your classroom and auditorium needs. Whether you're renovating a classroom, replacing an existing projector or a new project, there's an Optoma projector from standard to ultra-short throws, for large and small spaces. With up to 10,000 lumens and image sizes up to 300-inch, Optoma projectors transform the ordinary learning experience.

# Engage students

## Creative Touch Interactive Flat Panels

Packed with useful annotation tools, along with extensive connectivity and wireless content sharing, Optoma's Creative Touch interactive flat panels combine 4K UHD resolution and up to 20-point multi-touch capabilities to provide vivid visuals and make interactive collaboration easy in classrooms, lecture halls, boardrooms and other shared spaces.

## Collaborative features

### AIRSHARE

Inspire audience engagement with immediate results analysis from polls, quizzes and surveys via mobile devices.

### ANNOTATION

Easily broadcast meeting and lesson annotations from the display to remote viewers.

### EASY COLLABORATION

Wireless content sharing via iMirror and ScreenShare functionalities encourage bring your own device (BYOD) collaboration with iOS, Android, Chrome OS, Mac OS and Windows.

### CLOUD STORAGE & OPTOMA MARKETPLACE

Built-in Cloud Drive provides easy access to Google Drive and Microsoft OneDrive while the Optoma Marketplace provides downloadable business and education apps, including Zoom video conferencing, Khan Academy and more.

## Enhanced Security

Keep the interactive flat panel safe and secure in any environment with enhanced protection via programmable PIN code and USB port disable.

## Peace of mind-first class customer service

Committed to customer service and satisfaction, Optoma offers an optional extended warranty for added peace of mind. Contact your regional Optoma representative or installer for more details.

## Add the flexibility of Windows 10

Optoma offers optional full-fledged PCs with Intel Core i5 and i7 processors that slot into the Creative Touch IFP and enhance the computing capabilities. The Windows 10 operating system is not included, letting system administrators easily integrate the OPS2<sup>1</sup> slot-in PCs with existing volume licensing.

OPS2-i5 | OPS2-i7

## Add your own ChromeBox

Creative Touch IFPs are ready to accommodate Google Chrome OS devices<sup>1</sup> to completely integrate into educational institutions that adopted the Google software ecosystem. Simply connect a Chromebox to the Creative Touch's HDMI input and USB touch output for a seamless touchscreen Chrome OS experience.
